

Price Match Evaluation

Found a better price somewhere else but prefer to work with us? Simply submit the written quote from one of our competitors and we'll either match the price or tell you what the catch is with their lower price.

When we evaluate the quote you submit for a price match,
Here's what we'll be looking for

- An actual document (PDF file or Microsoft Word document, for example) as opposed to an email that simply says something like, "We can do that for \$250"
- The event date, event zip code, duration of the casino, and your name and contact information clearly indicated on the quote
- Evidence of casino-grade equipment (either on the company's website or attached to their quote):
 - Padded bumpers around the edges of all tables
 - Casino chips 11.5 gm, 39 mm or better
 - 2-sided funny money on heavy card stock and in color on front and back
 - 2-dealer craps tables that accommodate 12-14 or more players
- The same number of professional dealers as in our quote
- Evidence that all equipment delivery, setup, teardown, and pickup charges are included at no extra charge
- All applicable fees, surcharges, and taxes clearly indicated on the quote
- The expiration date for the quote
- A physical address listed for the company on either their website or the quote itself
 - (NO post office boxes, UPS Store addresses, or Mailboxes etc. addresses please!)
- Evidence that the company has liability insurance coverage at a minimum level of \$1-2M
- Evidence that the company has mandatory workers compensation and disability coverage for their employees
- If it appears that the other company is providing the same casino-grade equipment and the same level of quality and service that we are for a lower price, we'll be happy to match that price for you. If we spot one or more of the above items missing though, we'll let you know what "the catch" is with either their quote or their company.
